

## **PPP Process Advances**

*The Public Private Partnership Opportunity for the Norman Manley International Airport (NMIA) in Kingston which is up for divestment is advancing well.*

*Eight (8) companies, major international players in the airport construction sector have been approved as pre-qualified bidders following their responses to a “Request for Qualification” issued on February 20, 2017, by the Government of Jamaica (GoJ).*

*On June 19, 2017, the GoJ issued a “Request for Proposal” to all eight pre-qualified firms. The next step is a “Bidders Conference” to be hosted on September 26-26, 2017, which will give the prospective bidders comprehensive information on the PPP and an opportunity to ask questions face-to-face and seek clarification as they do their due diligence before presenting their bids.*
